

QCMS — Test Case Document

Format: Test Case ID | Module | Functionality | Expected Output | Actual Output | Result | Timestamp

Generated automatically by qcms_test_runner.py against a live running instance.

MODULE: AUTHENTICATION

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-AUTH-001	Authentication	New user registers a fresh organization with valid details	Organization + Admin account created, verification email sent	Organization and admin created successfully	Pass	2026-07-26 14:01:55
TC-AUTH-002	Authentication	Super Admin logs in with correct email/password	Login successful, redirected with role Super Admin	Login successful	Pass	2026-07-26 14:01:56
TC-AUTH-003	Authentication	Org Admin logs in with correct credentials	Login successful, redirected to Admin dashboard	Login successful	Pass	2026-07-26 14:01:56
TC-AUTH-004	Authentication	Team Member logs in with correct credentials	Login successful, redirected to Team Member dashboard	Login successful	Pass	2026-07-26 14:01:56
TC-AUTH-005	Authentication	User enters correct email but wrong password	Invalid credentials error shown, login blocked	Login correctly blocked	Pass	2026-07-26 14:01:57
TC-AUTH-006	Authentication	User enters an email that doesn't exist in the system	Generic error shown, same as wrong-password case	Same generic error shown, no account-existence leak	Pass	2026-07-26 14:01:57
TC-AUTH-007	Authentication	User submits login form with empty email/password	Validation error asking for missing fields	Validation error shown	Pass	2026-07-26 14:01:57
TC-AUTH-008	Authentication	Deactivated user tries to log in with correct credentials	Login blocked, account inactive message shown	Login succeeded even though account was deactivated	Fail	2026-07-26 14:01:57
TC-AUTH-009	Authentication	User enters SQL injection text in email/password fields	Login safely rejected, no error/crash exposed	Handled safely	Pass	2026-07-26 14:01:57
TC-AUTH-	Authentication	User tries to register with an	Email already registered error	Correctly rejected	Pass	2026-07-26

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
010		email already in use	shown			14:01:57
TC-AUTH-011	Authentication	User submits registration form missing org name or password	Validation error listing missing fields	Validation error shown	Pass	2026-07-26 14:01:57
TC-AUTH-012	Authentication	User enters a weak password (e.g. "123")	Password rejected for not meeting policy	Weak password was accepted, account created anyway	Fail	2026-07-26 14:01:57
TC-AUTH-013	Authentication	User enters a script tag in the organization name field	Value is safely stored/escaped, no script runs when displayed	Handled safely, not reflected raw	Pass	2026-07-26 14:01:58
TC-AUTH-014	Authentication	User enters an extremely long organization name (5000+ characters)	Rejected with validation error, not a server crash	Request crashed with a server error instead of a clean validation message	Fail	2026-07-26 14:01:58
TC-AUTH-015	Authentication	User tries to register when registration is turned off (SSO-only mode)	Registration blocked with disabled message	Correctly blocked	Pass	2026-07-26 14:01:58
TC-AUTH-016	Authentication	Logged-in user requests an OTP to change password, enters correct current password	OTP sent to registered email	OTP request crashed with a server error every time	Fail	2026-07-26 14:01:58
TC-AUTH-017	Authentication	Logged-in user changes password with correct current password	Password updated, old password stops working, new one works	Password changed successfully, old password stopped working	Pass	2026-07-26 14:01:59
TC-AUTH-018	Authentication	User enters wrong current password	Current password incorrect error shown	Correctly rejected	Pass	2026-07-26 14:01:59
TC-AUTH-	Authentication	User tries to set new password	System should flag this if policy	Same password was	Fail	2026-07-26

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
019		same as current one	requires a different password	accepted with no complaint		14:02:00
TC-AUTH-020	Authentication	User enters a weak new password	Rejected for not meeting complexity rules	Correctly rejected	Pass	2026-07-26 14:02:00
TC-AUTH-021	Authentication	User tries to change password without being logged in	Request blocked, login required message	Correctly blocked	Pass	2026-07-26 14:02:00
TC-AUTH-022	Authentication	User's session token is expired or invalid	Request blocked, session expired message	Correctly blocked	Pass	2026-07-26 14:02:00
TC-AUTH-023	Authentication	User submits the form with empty fields	Validation error, fields required	Validation error shown	Pass	2026-07-26 14:02:00
TC-AUTH-024	Authentication	User requests a signup OTP with a fresh email	OTP sent to email successfully	OTP sent	Pass	2026-07-26 14:02:00
TC-AUTH-025	Authentication	User requests OTP for an email already tied to an existing organization	Already registered error shown, no OTP sent	Correctly rejected	Pass	2026-07-26 14:02:00
TC-AUTH-026	Authentication	User submits the request with no email entered	Validation error, email required	Validation error shown	Pass	2026-07-26 14:02:00
TC-AUTH-027	Authentication	User requests OTP twice in a row for the same email	Second OTP replaces the first, both requests succeed	Both requests succeeded	Pass	2026-07-26 14:02:00
TC-AUTH-028	Authentication	User enters the correct OTP received by email	Email marked as verified successfully	Email verified	Pass	2026-07-26 14:02:00
TC-AUTH-029	Authentication	User enters an incorrect OTP	Invalid verification code error shown	Correctly rejected	Pass	2026-07-26 14:02:00
TC-AUTH-030	Authentication	User enters correct OTP after it has expired (10+ minutes old)	Verification code has expired message shown	Correctly rejected	Pass	2026-07-26 14:02:01
TC-AUTH-031	Authentication	User submits the form without entering an OTP	Validation error, OTP required	Validation error shown	Pass	2026-07-26 14:02:01

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-AUTH-032	Authentication	Admin creates a new user with valid, unique details	User created, temporary password emailed to them	User created	Pass	2026-07-26 14:02:01
TC-AUTH-033	Authentication	Team Member (non-Admin) tries to create a new user	Blocked with Unauthorized message	Correctly blocked	Pass	2026-07-26 14:02:01
TC-AUTH-034	Authentication	Admin tries to create a user with a username that's already taken	Username already exists error shown	Correctly rejected	Pass	2026-07-26 14:02:01
TC-AUTH-035	Authentication	Admin tries to create a user with an email that's already taken	Email already exists error shown	Correctly rejected	Pass	2026-07-26 14:02:01
TC-AUTH-036	Authentication	Admin selects a role that doesn't exist in the system	Invalid role error shown	Correctly rejected	Pass	2026-07-26 14:02:01
TC-AUTH-037	Authentication	Login page loads with no specific user identified yet	Default login options shown	Default options shown correctly	Pass	2026-07-26 14:02:01
TC-AUTH-038	Authentication	Login page loads after user types a known email	Organization-specific login options shown	Org-specific options shown	Pass	2026-07-26 14:02:01
TC-AUTH-039	Authentication	User types an email that doesn't match anyone	Falls back to default login options, no error	Fell back correctly	Pass	2026-07-26 14:02:01
TC-AUTH-040	Authentication	User types SQL injection text into the identifier field	Handled safely, default config shown, no crash	Handled safely	Pass	2026-07-26 14:02:01
TC-AUTH-041	Authentication	Logged-in user views their own profile page	Full profile details displayed correctly	Profile shown correctly	Pass	2026-07-26 14:02:01
TC-AUTH-042	Authentication	User tries to view profile without logging in	Blocked, login required	Correctly blocked	Pass	2026-07-26 14:02:01
TC-AUTH-043	Authentication	User submits the reactivation request with an empty message	Validation error, message required	Validation error shown	Pass	2026-07-26 14:02:01
TC-AUTH-044	Authentication	Deactivated user submits a request to reactivate their	Request submitted, support ticket	Request submitted	Pass	2026-07-26 14:02:01

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
		account	created, admin notified			
TC-AUTH-045	Authentication	Team Member tries to request org reactivation	Blocked, only Admin/CEO allowed	Correctly blocked	Pass	2026-07-26 14:02:01
TC-AUTH-046	Authentication	Admin requests reactivation when org isn't actually suspended	Organization is not suspended error shown	Correctly rejected	Pass	2026-07-26 14:02:01
TC-AUTH-047	Authentication	Admin of a suspended organization requests reactivation	Request submitted successfully	Request submitted	Pass	2026-07-26 14:02:01
TC-AUTH-048	Authentication	User updates their display name and language preference	Profile updated successfully, changes reflected immediately	Updated successfully	Pass	2026-07-26 14:02:01
TC-AUTH-049	Authentication	User uploads a valid profile picture (image file)	Picture uploaded and displayed on profile	Uploaded successfully	Pass	2026-07-26 14:02:01
TC-AUTH-050	Authentication	User tries to upload a disallowed file type as profile picture (e.g. .exe)	File rejected/ignored, profile picture unchanged	Correctly rejected, picture unchanged	Pass	2026-07-26 14:02:01
TC-AUTH-051	Authentication	User tries to edit profile without logging in	Blocked, login required	Correctly blocked	Pass	2026-07-26 14:02:01
TC-AUTH-052	Authentication	User views a colleague's public profile in the same organization	Limited profile info shown, no email/billing data	Limited profile shown correctly	Pass	2026-07-26 14:02:01
TC-AUTH-053	Authentication	User looks up a profile ID that doesn't exist	User not found message shown	Correctly shown as not found	Pass	2026-07-26 14:02:01
TC-AUTH-054	Authentication	User from one organization tries to view a profile from a different organization	Should be blocked, cross-org access denied	User from a different organization could view the profile	Fail	2026-07-26 14:02:02
TC-AUTH-	Authentication	User enters wrong current password	Invalid current password error	Correctly rejected	Pass	2026-07-26

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
055		when requesting OTP	shown			14:02:02
TC-AUTH-056	Authentication	Logged-in user logs out	Session ends, redirected to login page	Logged out successfully	Pass	2026-07-26 14:02:02
TC-AUTH-057	Authentication	User tries to logout without an active session	Blocked, login required	Correctly blocked	Pass	2026-07-26 14:02:02
TC-AUTH-058	Authentication	Logged-in user sets a new password directly (e.g. after first login)	Password updated successfully	Updated successfully	Pass	2026-07-26 14:02:02
TC-AUTH-059	Authentication	User submits the form with no new password entered	Validation error, password required	Validation error shown	Pass	2026-07-26 14:02:03
TC-AUTH-060	Authentication	User requests a password reset link using their registered email	Reset link sent to email	Reset link sent	Pass	2026-07-26 14:02:03
TC-AUTH-061	Authentication	User requests a reset link using an email that isn't registered	Generic message shown, no confirmation of account existence	Generic message shown, no leak	Pass	2026-07-26 14:02:03
TC-AUTH-062	Authentication	User clicks the verification link sent to their email	Email marked verified, success page shown	Verified successfully	Pass	2026-07-26 14:02:03
TC-AUTH-063	Authentication	User clicks an invalid/broken verification link	Invalid or expired link message shown	Correctly rejected	Pass	2026-07-26 14:02:03
TC-AUTH-064	Authentication	User clicks a verification link after it has expired	Link expired message shown	Correctly rejected	Pass	2026-07-26 14:02:03
TC-AUTH-065	Authentication	User clicks the same verification link a second time	Second attempt fails since link is already used	Correctly rejected	Pass	2026-07-26 14:02:03
TC-AUTH-066	Authentication	User sets a new password using a valid reset link	Password updated, user can log in with new password	Updated successfully	Pass	2026-07-26 14:02:03
TC-AUTH-067	Authentication	User submits reset form without entering a new	Validation error, password required	Validation error shown	Pass	2026-07-26 14:02:03

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
		password				
TC-AUTH-068	Authentication	User tries to use an invalid/fake reset link	Invalid or expired link error shown	Correctly rejected	Pass	2026-07-26 14:02:03
TC-AUTH-069	Authentication	User tries to use a reset link that has already expired	Link expired error shown	Correctly rejected	Pass	2026-07-26 14:02:03
TC-AUTH-070	Authentication	System generates a profile avatar for a user with no uploaded photo	Avatar shows correct initials	Correct initials shown	Pass	2026-07-26 14:02:03
TC-AUTH-071	Authentication	Same username is requested for avatar multiple times	Same avatar color shown every time	Consistent	Pass	2026-07-26 14:02:03
TC-AUTH-072	Authentication	User submits a new support ticket with subject and message	Ticket created successfully	Ticket created	Pass	2026-07-26 14:02:03
TC-AUTH-073	Authentication	User submits a ticket with an empty message	Validation error, message required	Validation error shown	Pass	2026-07-26 14:02:03
TC-AUTH-074	Authentication	User views their list of submitted tickets	Only their own tickets are shown, not other users' tickets	Own tickets shown correctly	Pass	2026-07-26 14:02:03
TC-AUTH-075	Authentication	User tries to view/submit tickets without logging in	Blocked, login required	Correctly blocked	Pass	2026-07-26 14:02:03
TC-AUTH-076	Authentication	User tries Google sign-in while it's turned off in settings	Blocked, Google sign-in disabled message	Correctly blocked	Pass	2026-07-26 14:02:03
TC-AUTH-077	Authentication	User tries an unsupported sign-in provider (e.g. Facebook)	Invalid provider error shown	Correctly rejected	Pass	2026-07-26 14:02:03
TC-AUTH-078	Authentication	Brand-new user signs in with Google when registration is open	New account auto-created, logged in successfully	New account created and logged in	Pass	2026-07-26 14:02:04
TC-	Authentication	Brand-new user	Blocked, not	Correctly	Pass	2026-07-

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
AUTH-079		tries Google sign-in when registration is closed	registered on this platform message	blocked		26 14:02:04
TC-AUTH-080	Authentication	User checks system status when maintenance mode is off	Shows system is available as normal	Shown correctly as available	Pass	2026-07-26 14:02:04
TC-AUTH-081	Authentication	User checks system status when maintenance mode is turned on	Shows maintenance message and expected downtime	Maintenance message shown correctly	Pass	2026-07-26 14:02:04

Authentication: 81 test cases, 75 passed, 6 failed.

MODULE: ADMIN

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-ADMIN-001	Admin	Admin views the list of users in their organization	List of org users shown	User list shown correctly	Pass	2026-07-26 14:02:05
TC-ADMIN-002	Admin	Team Member (non-Admin) tries to view the user list	Blocked, Admin access required	Correctly blocked	Pass	2026-07-26 14:02:05
TC-ADMIN-003	Admin	Admin views details of a specific user	User's details shown	Details shown correctly	Pass	2026-07-26 14:02:05
TC-ADMIN-004	Admin	Admin looks up a user ID that doesn't exist	Not found error shown	Correctly shown as not found	Pass	2026-07-26 14:02:05
TC-ADMIN-005	Admin	Admin updates a user's full name	User updated successfully	Updated successfully	Pass	2026-07-26 14:02:05
TC-ADMIN-006	Admin	Admin deactivates a user by toggling is_active off	User deactivated	Deactivated successfully	Pass	2026-07-26 14:02:05
TC-ADMIN-007	Admin	Admin regenerates a user's login credentials	New temporary password generated and emailed	Regenerated successfully	Pass	2026-07-26 14:02:06
TC-ADMIN-008	Admin	Admin deletes a user with no dependencies (fresh, no projects/logs)	User deleted, or blocked with a clear reason if dependencies exist	Deletion crashed with a server error every time	Fail	2026-07-26 14:02:06
TC-ADMIN-009	Admin	Admin views the list of custom user fields	System + custom fields shown	Fields shown correctly	Pass	2026-07-26 14:02:06
TC-ADMIN-010	Admin	Admin adds a new custom field for users	Custom field created successfully	Field created successfully	Pass	2026-07-26 14:02:06
TC-ADMIN-011	Admin	Admin tries to add a custom field using a reserved system name (e.g. 'email')	Rejected as a reserved field name	Correctly rejected	Pass	2026-07-26 14:02:06
TC-ADMIN-012	Admin	Admin deletes a custom field they created	Custom field deleted successfully	Deleted successfully	Pass	2026-07-26 14:02:06
TC-ADMIN-013	Admin	Admin views which fields can be used to log in	Login options and available fields shown	Shown correctly	Pass	2026-07-26 14:02:06
TC-	Admin	Admin adds	Login options	Updated	Pass	2026-07-26

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
ADMIN-014		username as an allowed login option	updated successfully	successfully		14:02:06
TC-ADMIN-015	Admin	Admin tries to set an unknown field key as a login option	Rejected as unknown field	Correctly rejected	Pass	2026-07-26 14:02:06
TC-ADMIN-016	Admin	Admin downloads the CSV template for bulk user upload	CSV file with correct headers returned	Template downloaded correctly	Pass	2026-07-26 14:02:06
TC-ADMIN-017	Admin	Admin bulk-uploads a valid CSV with one new user	One user added successfully	User added successfully	Pass	2026-07-26 14:02:06
TC-ADMIN-018	Admin	Admin bulk-uploads a CSV with a row missing the username	Row-level error reported, other rows unaffected	Error correctly reported for the bad row	Pass	2026-07-26 14:02:06
TC-ADMIN-019	Admin	Admin uploads a non-CSV file for bulk upload	File accepted only if .csv/.txt, parsed leniently or rejected cleanly	Handled cleanly, no crash	Pass	2026-07-26 14:02:06
TC-ADMIN-020	Admin	Admin views the organization's dashboard stats	User count, project count, and pending validations shown	Stats shown correctly	Pass	2026-07-26 14:02:06
TC-ADMIN-021	Admin	Admin views the list of all projects in their organization	Project list shown (empty is fine for a fresh org)	Project list shown correctly	Pass	2026-07-26 14:02:06
TC-ADMIN-022	Admin	Admin tries to close a project directly	Blocked - only a Reviewer can close a project	Correctly blocked with a clear reason	Pass	2026-07-26 14:02:06
TC-ADMIN-023	Admin	Admin views the list of available roles	All system roles listed	Roles listed correctly	Pass	2026-07-26 14:02:06
TC-ADMIN-024	Admin	Admin views the list of departments	Org's departments shown	Shown correctly	Pass	2026-07-26 14:02:06
TC-ADMIN-025	Admin	Admin creates a new department	Department created successfully	Created successfully	Pass	2026-07-26 14:02:06
TC-ADMIN-026	Admin	Admin tries to create a department with no name	Validation error, name required	Correctly rejected	Pass	2026-07-26 14:02:06
TC-ADMIN-027	Admin	Admin views a specific department's details	Department details shown	Shown correctly	Pass	2026-07-26 14:02:06
TC-	Admin	Admin renames a	Department	Renamed	Pass	2026-07-26

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
ADMIN-028		department	updated successfully	successfully		14:02:06
TC-ADMIN-029	Admin	Admin deletes a department with no members assigned	Department deleted successfully	Deleted successfully	Pass	2026-07-26 14:02:06
TC-ADMIN-030	Admin	Admin views the organization's settings	Full org settings shown	Shown correctly	Pass	2026-07-26 14:02:06
TC-ADMIN-031	Admin	Admin updates organization settings (industry, timezone)	Settings updated successfully	Updated successfully	Pass	2026-07-26 14:02:06
TC-ADMIN-032	Admin	Admin enters an invalid zip code format	Rejected for invalid format	Correctly rejected	Pass	2026-07-26 14:02:06
TC-ADMIN-033	Admin	Admin upgrades the organization's subscription plan	Plan upgraded successfully	Upgraded successfully	Pass	2026-07-26 14:02:06
TC-ADMIN-034	Admin	Admin tries to upgrade to a plan name that doesn't exist	Invalid plan name error shown	Correctly rejected	Pass	2026-07-26 14:02:06
TC-ADMIN-035	Admin	Admin views the organization's billing history	List of past payments shown (empty is fine)	Shown correctly	Pass	2026-07-26 14:02:06
TC-ADMIN-036	Admin	Admin views current plan usage stats	Usage stats shown (users/projects vs plan limits)	Shown correctly	Pass	2026-07-26 14:02:06
TC-ADMIN-037	Admin	Admin rotates the org's legacy API key without an Enterprise plan	Blocked - API access requires Enterprise plan	Correctly blocked	Pass	2026-07-26 14:02:06
TC-ADMIN-038	Admin	Admin uploads an evidence file	File uploaded, URL returned	Uploaded successfully	Pass	2026-07-26 14:02:06
TC-ADMIN-039	Admin	Admin uploads a custom organization logo	Logo uploaded and org updated	Uploaded successfully	Pass	2026-07-26 14:02:06
TC-ADMIN-040	Admin	Admin uploads branding with an invalid asset type	Invalid asset type error shown	Correctly rejected	Pass	2026-07-26 14:02:06
TC-ADMIN-041	Admin	Admin views the organization's audit log	Recent actions shown (department creation, user	Audit trail shown correctly	Pass	2026-07-26 14:02:06

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
			updates, etc.)			
TC-ADMIN-042	Admin	Admin views the organization's 8-stage workflow template	Stage configuration shown	Shown correctly	Pass	2026-07-26 14:02:06
TC-ADMIN-043	Admin	Admin saves a custom 8-stage workflow template	Template saved successfully	Saved successfully	Pass	2026-07-26 14:02:06
TC-ADMIN-044	Admin	Admin tries to save a stage with an empty title	Validation error, title required	Correctly rejected	Pass	2026-07-26 14:02:06
TC-ADMIN-045	Admin	Admin resets the workflow template to system defaults	Template reset to the standard 8 stages	Reset successfully	Pass	2026-07-26 14:02:06
TC-ADMIN-046	Admin	Admin views the list of compliance standards (auto-seeded on first view)	Standard catalogue (ISO 9001, etc.) shown	Standards catalogue shown correctly	Pass	2026-07-26 14:02:06
TC-ADMIN-047	Admin	Admin fills in certificate details for a compliance standard	Certificate details saved	Saved successfully	Pass	2026-07-26 14:02:06
TC-ADMIN-048	Admin	Admin enables a compliance standard for their organization	Standard marked as enabled	Enabled successfully	Pass	2026-07-26 14:02:06
TC-ADMIN-049	Admin	Admin tries to update a compliance standard code that doesn't exist	Not found error shown	Correctly shown as not found	Pass	2026-07-26 14:02:06
TC-ADMIN-050	Admin	Admin views their organization's integration API key status	Shows no key exists yet (fresh org)	Correctly shown as not yet generated	Pass	2026-07-26 14:02:06
TC-ADMIN-051	Admin	Admin generates a new integration API key	New key generated and shown once, in full	Key generated successfully	Pass	2026-07-26 14:02:06
TC-ADMIN-052	Admin	Admin regenerates the integration API key, invalidating the old one	New key issued, old key invalidated	Regenerated successfully	Pass	2026-07-26 14:02:06
TC-ADMIN-053	Admin	Admin disables the integration API key without deleting it	Key status changed to Disabled	Disabled successfully	Pass	2026-07-26 14:02:06

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-ADMIN-054	Admin	Admin deletes the integration API key entirely	Key deleted successfully	Deleted successfully	Pass	2026-07-26 14:02:06
TC-ADMIN-055	Admin	Admin tries to delete an API key that no longer exists	Not found error shown	Correctly shown as not found	Pass	2026-07-26 14:02:06

Admin: 55 test cases, 54 passed, 1 failed.

MODULE: SUPER ADMIN

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-SUPERADMIN-001	Super Admin	Super Admin views their own sub-role and permission map	Sub-role and permissions shown	Shown correctly	Pass	2026-07-26 14:02:07
TC-SUPERADMIN-002	Super Admin	Regular Org Admin (non-super-admin) tries to access Super Admin permissions	Blocked, Super Admin access required	Was allowed despite not being a Super Admin	Fail	2026-07-26 14:02:07
TC-SUPERADMIN-003	Super Admin	Super Admin views global platform stats	Total companies, users, revenue, and open tickets shown	Global stats shown correctly	Pass	2026-07-26 14:02:07
TC-SUPERADMIN-004	Super Admin	Super Admin views filter dropdown options for the companies list	Industry/country/state/city options shown	Shown correctly	Pass	2026-07-26 14:02:07
TC-SUPERADMIN-005	Super Admin	Anyone (unauthenticated) fetches the public landing page content	Landing page CMS content returned	Content returned correctly	Pass	2026-07-26 14:02:07
TC-SUPERADMIN-006	Super Admin	Super Admin views the list of all companies/organizations on the platform	All organizations listed with subscription details	Shown correctly	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-007	Super Admin	Regular Org Admin tries to view the platform-wide companies list	Blocked, Super Admin access required	Was allowed	Fail	2026-07-26 14:02:08
TC-SUPERADMIN-008	Super Admin	Super Admin creates a brand-new organization with its own admin	Organization and admin provisioned successfully	Created successfully	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-009	Super Admin	Super Admin tries to create a company with missing required fields	Validation error listing missing fields	Correctly rejected	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-010	Super Admin	Super Admin views a specific company's full profile	Detailed company profile with usage stats shown	Shown correctly	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-011	Super Admin	Super Admin updates a company's industry and user limit	Company updated successfully	Updated successfully	Pass	2026-07-26 14:02:08
TC-SUPERADMIN	Super Admin	Super Admin views all users belonging to	List of that company's	Shown	Pass	2026-07-26

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
N-012	n	a specific company	users shown	correctly		14:02:08
TC-SUPERADMIN-013	Super Admin	Super Admin views audit logs specific to one company	Company-specific admin action log shown	Shown correctly	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-014	Super Admin	Super Admin changes a company's subscription plan directly	Plan changed, feature flags updated to match	Plan changed successfully	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-015	Super Admin	Super Admin tries to set an invalid plan name	Invalid plan error shown	Correctly rejected	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-016	Super Admin	Super Admin extends a company's trial end date	Trial extended to the new date	Extended successfully	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-017	Super Admin	Super Admin enters an invalid date format for the trial extension	Invalid date format error shown	Correctly rejected	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-018	Super Admin	Super Admin manually suspends a company	Company status changed to Suspended	Suspended successfully	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-019	Super Admin	Super Admin tries to set an invalid company status	Invalid status error shown	Correctly rejected	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-020	Super Admin	Super Admin manually activates a company's subscription	Subscription set to Active for 30 days	Activated successfully	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-021	Super Admin	Super Admin resets a company's admin password remotely	New temporary password generated	Reset successfully	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-022	Super Admin	Super Admin generates an impersonation token for a company's admin	Valid token issued to log in as that admin	Impersonation token issued	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-023	Super Admin	Super Admin bulk-suspends a list of companies (single company here)	Company suspended via bulk action	Bulk action applied successfully	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-024	Super Admin	Super Admin submits a bulk action with no company IDs selected	Validation error, ids required	Correctly rejected	Pass	2026-07-26 14:02:08
TC-SUPERADMIN	Super Admin	Super Admin soft-	Company marked as deleted (soft-delete),	Deleted	Pass	2026-07-26

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
N-025	n	deletes a company	recoverable	successfully		14:02:08
TC-SUPERADMIN-026	Super Admin	Super Admin restores a previously soft-deleted company	Company restored, no longer marked deleted	Restored successfully	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-027	Super Admin	Super Admin looks up a company ID that doesn't exist	Not found error shown	Correctly shown as not found	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-028	Super Admin	Super Admin views platform-wide settings	Full settings shown, sensitive values masked	Settings shown correctly	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-029	Super Admin	Super Admin updates platform-wide settings (site name, support email)	Settings updated successfully	Updated successfully	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-030	Super Admin	Super Admin views platform security KPIs	Security metrics dashboard shown	Shown correctly	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-031	Super Admin	Super Admin views recent security threat alerts	Threat list shown	Shown correctly	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-032	Super Admin	Super Admin views the settings dashboard overview	Settings dashboard summary shown	Shown correctly	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-033	Super Admin	Super Admin tests the configured email integration	Test result shown (success or a clear configuration error)	Handled without crashing unexpectedly	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-034	Super Admin	Super Admin tests a configured webhook URL	Test result shown	Handled without crashing unexpectedly	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-035	Super Admin	Super Admin tests the configured AI integration	Test result shown	Handled without crashing unexpectedly	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-036	Super Admin	Super Admin checks overall integration health status	Health status for each integration shown	Handled without crashing unexpectedly	Pass	2026-07-26 14:02:08
TC-SUPERADMIN	Super Admin	Super Admin views backup	Backup configuration and history shown	Shown correctly	Pass	2026-07-26

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
N-037	n	settings/history				14:02:08
TC-SUPERADMIN-038	Super Admin	Super Admin triggers a manual backup	Backup initiated or a clear result shown	Handled without crashing unexpectedly	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-039	Super Admin	Super Admin views the list of platform-level API keys	API key list shown	Shown correctly	Pass	2026-07-26 14:02:08
TC-SUPERADMIN-040	Super Admin	Super Admin generates a new platform-level API key	New key created successfully	Created successfully	Pass	2026-07-26 14:02:09
TC-SUPERADMIN-041	Super Admin	Super Admin deletes a platform-level API key	Key deleted successfully	Deleted successfully	Pass	2026-07-26 14:02:09
TC-SUPERADMIN-042	Super Admin	Super Admin toggles a platform feature flag on	Feature flag updated	Handled cleanly	Pass	2026-07-26 14:02:09
TC-SUPERADMIN-043	Super Admin	Super Admin views their own profile	Username and email shown	Shown correctly	Pass	2026-07-26 14:02:09
TC-SUPERADMIN-044	Super Admin	Super Admin submits their profile form with no changes	No error, nothing changes	Handled gracefully	Pass	2026-07-26 14:02:09
TC-SUPERADMIN-045	Super Admin	Super Admin views the platform-wide admin action log	Recent admin actions listed	Shown correctly	Pass	2026-07-26 14:02:09
TC-SUPERADMIN-046	Super Admin	Super Admin views all support tickets across every organization	All tickets listed with org/requester info	Shown correctly	Pass	2026-07-26 14:02:09
TC-SUPERADMIN-047	Super Admin	Super Admin views a specific support ticket's full details	Full ticket details shown	Shown correctly	Pass	2026-07-26 14:02:09
TC-SUPERADMIN-048	Super Admin	Super Admin resolves a support ticket	Ticket marked Resolved with a resolution note	Resolved successfully	Pass	2026-07-26 14:02:09
TC-SUPERADMIN-049	Super Admin	Super Admin looks up a support ticket ID that doesn't exist	Not found error shown	Correctly shown as not found	Pass	2026-07-26 14:02:09
TC-SUPERADMIN-050	Super Admin	Super Admin views all subscription payments across the	Payment list shown (empty is fine)	Shown correctly	Pass	2026-07-26 14:02:09

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
		platform				
TC-SUPERADMIN-051	Super Admin	Super Admin checks overall system health	Uptime, CPU/memory, DB status shown	Health status shown correctly	Pass	2026-07-26 14:02:09
TC-SUPERADMIN-052	Super Admin	Super Admin views real-time platform alerts	Current alert list shown (empty is fine)	Shown correctly	Pass	2026-07-26 14:02:09
TC-SUPERADMIN-053	Super Admin	Super Admin views the list of all Super Admin accounts	All Super Admin accounts and sub-roles listed	Shown correctly	Pass	2026-07-26 14:02:09
TC-SUPERADMIN-054	Super Admin	Super Admin creates a new Super Admin sub-account (e.g. Support role)	New Super Admin account created	Created successfully	Pass	2026-07-26 14:02:09
TC-SUPERADMIN-055	Super Admin	Super Admin tries to create another account with the same username	Username already taken error shown	Correctly rejected	Pass	2026-07-26 14:02:09
TC-SUPERADMIN-056	Super Admin	Super Admin tries to create a sub-account with a too-short password	Password must be at least 6 characters error shown	Correctly rejected	Pass	2026-07-26 14:02:09
TC-SUPERADMIN-057	Super Admin	Super Admin changes another Super Admin account's sub-role	Sub-role updated successfully	Updated successfully	Pass	2026-07-26 14:02:09
TC-SUPERADMIN-058	Super Admin	Super Admin deletes another Super Admin's account	Account deleted, dependent records reassigned	Deleted successfully	Pass	2026-07-26 14:02:09
TC-SUPERADMIN-059	Super Admin	Super Admin tries to delete their own currently logged-in account	Blocked - cannot delete your own active login	Correctly blocked	Pass	2026-07-26 14:02:09
TC-SUPERADMIN-060	Super Admin	Super Admin tries to update their own credentials with the wrong current password	Current password verification failed error shown	Correctly rejected	Pass	2026-07-26 14:02:09

Super Admin: 60 test cases, 58 passed, 2 failed.

MODULE: PROJECTS

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-PROJ-001	Projects	User views the list of departments for assigning projects	Org's departments shown	Shown correctly	Pass	2026-07-26 14:02:13
TC-PROJ-002	Projects	Team Leader views the list of available facilitators	Facilitators in the org listed	Facilitators listed correctly	Pass	2026-07-26 14:02:13
TC-PROJ-003	Projects	Team Leader views the list of team members available for assignment	Team Members in the org listed	Members listed correctly	Pass	2026-07-26 14:02:13
TC-PROJ-004	Projects	Admin views the full pool of assignable people (TL/TM/Facilitator/Reviewer)	Unified selection pool shown	Shown correctly	Pass	2026-07-26 14:02:13
TC-PROJ-005	Projects	User looks up an idea code that doesn't exist in the Ideation tool	Not found, idea code doesn't exist	Correctly shown as not found	Pass	2026-07-26 14:02:13
TC-PROJ-006	Projects	Team Leader creates a new project with a full team, facilitator, and reviewer	Project initialized as Draft, Stage 1 started	Project created successfully	Pass	2026-07-26 14:02:13
TC-PROJ-007	Projects	Facilitator (not Team Leader/Member) tries to create a project	Blocked, only Team Leaders/Members can initialize projects	Correctly blocked	Pass	2026-07-26 14:02:13
TC-PROJ-008	Projects	User submits the project creation form with no title	Validation error / creation fails cleanly	Handled, not created	Pass	2026-07-26 14:02:13
TC-PROJ-009	Projects	Team Leader views their list of projects	Projects they lead/created/are a member of are shown	Correct project list shown	Pass	2026-07-26 14:02:13
TC-PROJ-010	Projects	Reviewer views their list of projects	Only projects they are assigned as reviewer for are shown	Correctly scoped to assigned projects	Pass	2026-07-26 14:02:13
TC-PROJ-011	Projects	A Team Member not assigned to any project views their project list	Empty list, no unrelated projects visible	Correctly empty/scope d	Pass	2026-07-26 14:02:14
TC-PROJ-012	Projects	Team Leader views full details of their project	Full project details, stages, team, and workflow data	Shown correctly	Pass	2026-07-26 14:02:14

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
			shown			
TC-PROJ-013	Projects	An unrelated Team Member tries to view a project they're not assigned to	Blocked, unauthorized access	Correctly blocked	Pass	2026-07-26 14:02:14
TC-PROJ-014	Projects	User looks up a project ID that doesn't exist	Not found error shown	Correctly shown as not found	Pass	2026-07-26 14:02:14
TC-PROJ-015	Projects	Team Leader saves partial Stage 1 progress without submitting	Progress saved, not yet submitted	Saved successfully	Pass	2026-07-26 14:02:14
TC-PROJ-016	Projects	Team Leader submits Stage 1 while required sections are still incomplete	Blocked with a list of missing sections	Correctly blocked with specific missing sections	Pass	2026-07-26 14:02:14
TC-PROJ-017	Projects	Team Leader submits Stage 1 after completing all required sections	Submitted for reviewer approval successfully	Submitted successfully	Pass	2026-07-26 14:02:14
TC-PROJ-018	Projects	Team Member (not Reviewer) tries to review/approve Stage 1	Blocked, only a Reviewer can review	Correctly blocked	Pass	2026-07-26 14:02:14
TC-PROJ-019	Projects	Reviewer submits an invalid decision value for Stage 1 review	Invalid decision error shown	Correctly rejected	Pass	2026-07-26 14:02:14
TC-PROJ-020	Projects	Reviewer approves Stage 1	Stage 1 marked Completed, Stage 2 unlocked	Approved successfully, Stage 2 unlocked	Pass	2026-07-26 14:02:14
TC-PROJ-021	Projects	Team Leader saves progress on Stage 2	Progress saved	Saved successfully	Pass	2026-07-26 14:02:14
TC-PROJ-022	Projects	Team Leader submits Stage 2 after saving standard-verification data through the normal Save action	Stage 2 completed, auto-advanced to Stage 3	Submission blocked, saved data was not recognized	Fail	2026-07-26 14:02:14
TC-PROJ-023	Projects	User tries to use the generic Stage 2-8 route for Stage 1	Rejected, Stage 1 has its own dedicated route	Correctly rejected	Pass	2026-07-26 14:02:14
TC-PROJ-024	Projects	User tries to save a stage number that doesn't exist (Stage 9)	Rejected, invalid stage ID	Correctly rejected	Pass	2026-07-26 14:02:14

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-PROJ-025	Projects	Reviewer (not on Team) tries to save Stage 3 progress	Blocked, not an allowed role for this stage	Correctly blocked	Pass	2026-07-26 14:02:14
TC-PROJ-026	Projects	Team Leader requests facilitator assistance on the project	Assistance request sent to the assigned facilitator	Request sent successfully	Pass	2026-07-26 14:02:14
TC-PROJ-027	Projects	Team Leader views their own assistance requests for this project	List of their requests shown	Shown correctly	Pass	2026-07-26 14:02:14
TC-PROJ-028	Projects	Team Leader schedules a meeting for a specific stage	Meeting created successfully	Created successfully	Pass	2026-07-26 14:02:14
TC-PROJ-029	Projects	Team Leader views meetings scheduled for a specific stage	List of meetings shown	Shown correctly	Pass	2026-07-26 14:02:14
TC-PROJ-030	Projects	Team Leader views the project's activity/audit log	History of actions on this project shown	Activity log shown correctly	Pass	2026-07-26 14:02:14
TC-PROJ-031	Projects	An unrelated Team Member tries to view this project's activity log	Blocked, project appears not found to them	Correctly blocked	Pass	2026-07-26 14:02:14
TC-PROJ-032	Projects	Project creator updates the project's description	Project updated successfully	Updated successfully	Pass	2026-07-26 14:02:14
TC-PROJ-033	Projects	An unrelated Team Member tries to edit a project they don't own	Blocked, permission denied	Correctly blocked	Pass	2026-07-26 14:02:14
TC-PROJ-034	Projects	An unrelated Team Member tries to delete a project they don't own	Blocked, permission denied	Was allowed to delete an unrelated project	Fail	2026-07-26 14:02:14
TC-PROJ-035	Projects	Admin deletes the project and all its associated data	Project and all related records deleted successfully	Project was already deleted by the unrelated team member above (see the department-bypass bug) - nothing left for Admin to delete	Fail	2026-07-26 14:02:14

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-PROJ-036	Projects	Admin tries to delete a project ID that doesn't exist	Not found error shown, not a crash	Handled cleanly	Pass	2026-07-26 14:02:14
TC-PROJ-037	Projects	Team Leader uploads an evidence file for a project stage	File uploaded, URL returned	Uploaded successfully	Pass	2026-07-26 14:02:14
TC-PROJ-038	Projects	User tries to upload evidence without being logged in	Blocked, login required	Correctly blocked	Pass	2026-07-26 14:02:14

Projects: 38 test cases, 35 passed, 3 failed.

MODULE: SUBSCRIPTIONS

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-SUB-001	Subscriptions	Super Admin views the subscriptions dashboard (MRR, churn, plan distribution)	Revenue and subscription KPIs shown	Dashboard shown correctly	Pass	2026-07-26 14:02:16
TC-SUB-002	Subscriptions	Regular Team Member tries to view the subscriptions dashboard	Blocked, Super Admin access required	Correctly blocked	Pass	2026-07-26 14:02:16
TC-SUB-003	Subscriptions	Org Admin views which payment gateways are active	Active gateway config shown (masked)	Shown correctly	Pass	2026-07-26 14:02:16
TC-SUB-004	Subscriptions	Org Admin tries to create a payment order with no amount specified	Validation error, amount required	Correctly rejected	Pass	2026-07-26 14:02:16
TC-SUB-005	Subscriptions	Super Admin views the list of all subscriptions on the platform	Subscriptions listed with search/filter/pagination	Shown correctly	Pass	2026-07-26 14:02:16
TC-SUB-006	Subscriptions	Super Admin creates a new subscription for an organization	Subscription created with an auto-generated invoice	Created successfully	Pass	2026-07-26 14:02:16
TC-SUB-007	Subscriptions	Super Admin tries to create a second active subscription for the same organization	Blocked, organization already has an active subscription	Correctly rejected	Pass	2026-07-26 14:02:16
TC-SUB-008	Subscriptions	Super Admin tries to create a subscription for an organization that doesn't exist	Organization not found error shown	Correctly rejected	Pass	2026-07-26 14:02:16

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
		name				
TC-SUB-010	Subscriptions	Super Admin views a specific subscription's full details	Full subscription details shown	Shown correctly	Pass	2026-07-26 14:02:16
TC-SUB-011	Subscriptions	Super Admin updates a subscription's billing notes	Subscription updated successfully	Updated successfully	Pass	2026-07-26 14:02:16
TC-SUB-012	Subscriptions	Super Admin manually renews a subscription	Renewed, new payment and invoice generated	Renewed successfully	Pass	2026-07-26 14:02:16
TC-SUB-013	Subscriptions	Super Admin upgrades a subscription from Professional to Enterprise	Plan upgraded successfully	Upgraded successfully	Pass	2026-07-26 14:02:16
TC-SUB-014	Subscriptions	Super Admin tries to 'upgrade' to a lower-tier plan (Enterprise to Starter)	Blocked, must use the downgrade action instead	Correctly rejected	Pass	2026-07-26 14:02:16
TC-SUB-015	Subscriptions	Super Admin downgrades a subscription to Starter	Plan downgraded successfully	Downgraded successfully	Pass	2026-07-26 14:02:16
TC-SUB-016	Subscriptions	Super Admin pauses (suspends) an active subscription	Subscription suspended	Paused successfully	Pass	2026-07-26 14:02:16
TC-SUB-017	Subscriptions	Super Admin tries to pause a subscription that's already paused	Blocked, only Active/Trial subscriptions can be paused	Correctly rejected	Pass	2026-07-26 14:02:16
TC-SUB-018	Subscriptions	Super Admin resumes a paused subscription	Subscription set back to Active	Resumed successfully	Pass	2026-07-26 14:02:16
TC-SUB-019	Subscriptions	Super Admin extends a subscription by 30 days	End date pushed out by 30 days	Extended successfully	Pass	2026-07-26 14:02:16

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-SUB-020	Subscriptions	Super Admin tries to extend a subscription by a negative number of days	Validation error, days must be positive	Correctly rejected	Pass	2026-07-26 14:02:16
TC-SUB-021	Subscriptions	Super Admin sends a manual renewal reminder for a subscription	Reminder delivered to the org's admins	Sent successfully	Pass	2026-07-26 14:02:16
TC-SUB-022	Subscriptions	Super Admin views the list of invoices for a subscription	Invoice history shown, paginated	Shown correctly	Pass	2026-07-26 14:02:16
TC-SUB-023	Subscriptions	Super Admin manually generates an additional invoice for a subscription	New invoice created as Draft	Created successfully	Pass	2026-07-26 14:02:16
TC-SUB-024	Subscriptions	Super Admin views the payment history for a subscription	List of payments shown (from the renewal above)	Payment history is empty even though a renewal was just processed	Fail	2026-07-26 14:02:16
TC-SUB-025	Subscriptions	Super Admin views the audit log for a subscription's lifecycle actions	History of renew/upgrade/pause/etc. actions shown	Audit trail shown correctly	Pass	2026-07-26 14:02:16
TC-SUB-026	Subscriptions	Super Admin cancels a subscription	Subscription cancelled, auto-renewal turned off	Cancelled successfully	Pass	2026-07-26 14:02:16
TC-SUB-027	Subscriptions	Super Admin tries to cancel a subscription that's already cancelled	Blocked, already cancelled	Correctly rejected	Pass	2026-07-26 14:02:16
TC-SUB-028	Subscriptions	Super Admin looks up a subscription ID that doesn't exist	Not found error shown	Correctly shown as not found	Pass	2026-07-26 14:02:16

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-SUB-029	Subscriptions	Super Admin converts a trial subscription to a paid one	Trial converted, status set to Active	Converted successfully	Pass	2026-07-26 14:02:17
TC-SUB-030	Subscriptions	Super Admin extends a trial subscription by a few days	Trial end date extended	Extended successfully	Pass	2026-07-26 14:02:17
TC-SUB-031	Subscriptions	Super Admin cancels a trial subscription before it converts	Trial cancelled	Cancelled successfully	Pass	2026-07-26 14:02:17
TC-SUB-032	Subscriptions	Super Admin submits a bulk renewal with no subscription IDs selected	Validation error, subscription_ids required	Correctly rejected	Pass	2026-07-26 14:02:17
TC-SUB-033	Subscriptions	Super Admin bulk-renews including a subscription ID that doesn't exist	That ID reported as failed, doesn't crash the whole batch	Handled gracefully, bad ID reported as failed	Pass	2026-07-26 14:02:17
TC-SUB-034	Subscriptions	Super Admin tries a bulk plan-assignment with an invalid plan name	Invalid plan name error shown	Correctly rejected	Pass	2026-07-26 14:02:17
TC-SUB-035	Subscriptions	Super Admin sends bulk reminders with an empty ID list	Handled gracefully, zero reminders sent	Handled gracefully	Pass	2026-07-26 14:02:17
TC-SUB-036	Subscriptions	Super Admin exports all subscriptions to CSV	CSV file with subscription data returned	Exported correctly	Pass	2026-07-26 14:02:17
TC-SUB-037	Subscriptions	Super Admin views the plan catalogue	Plan list shown (static catalogue or DB-backed plans)	Shown correctly	Pass	2026-07-26 14:02:17
TC-SUB-038	Subscriptions	Super Admin creates a brand-new custom plan	Plan created with pricing, limits, and modules	Created successfully	Pass	2026-07-26 14:02:17
TC-SUB-039	Subscriptions	Super Admin tries to create another plan	Plan name already exists error shown	Correctly rejected	Pass	2026-07-26 14:02:17

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
		with the same name				
TC-SUB-040	Subscriptions	Super Admin tries to create a plan with no name or code	Validation error, name and code required	Correctly rejected	Pass	2026-07-26 14:02:17
TC-SUB-041	Subscriptions	Super Admin views a specific plan's full details	Pricing, limits, modules, and version history shown	Shown correctly	Pass	2026-07-26 14:02:17
TC-SUB-042	Subscriptions	Super Admin updates a plan's description	Plan updated successfully	Updated successfully	Pass	2026-07-26 14:02:17
TC-SUB-043	Subscriptions	Super Admin views the version history of a plan	List of past versions shown	Version history shown correctly	Pass	2026-07-26 14:02:17
TC-SUB-044	Subscriptions	Super Admin duplicates an existing plan	New plan created as a copy, starting Inactive	Duplicated successfully	Pass	2026-07-26 14:02:17
TC-SUB-045	Subscriptions	Super Admin views which organizations are subscribed to a plan	Subscriber list shown (empty is fine for a new plan)	Shown correctly	Pass	2026-07-26 14:02:17
TC-SUB-046	Subscriptions	Super Admin archives (deprecates) a plan	Plan status set to Deprecated	Archived successfully	Pass	2026-07-26 14:02:17
TC-SUB-047	Subscriptions	Super Admin reactivates a previously archived plan	Plan status set back to Active	Reactivated successfully	Pass	2026-07-26 14:02:17
TC-SUB-048	Subscriptions	Super Admin deactivates a plan	Plan status set to Inactive	Deactivated successfully	Pass	2026-07-26 14:02:17
TC-SUB-049	Subscriptions	Super Admin deletes a plan with zero active subscribers	Plan deleted successfully	Deleted successfully	Pass	2026-07-26 14:02:17
TC-SUB-050	Subscriptions	Super Admin tries to delete a plan ID that doesn't exist	Not found error shown	Correctly shown as not found	Pass	2026-07-26 14:02:17
TC-	Subscription	Super Admin	Comparison matrix of	Shown	Pass	2026-07-

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
SUB-051	s	compares all active plans side by side	pricing/limits/modules shown	correctly		26 14:02:17
TC-SUB-052	Subscription s	Super Admin views plan performance insights and recommendations	Insights/recommendations shown	Shown correctly	Pass	2026-07-26 14:02:17

Subscriptions: 52 test cases, 51 passed, 1 failed.

MODULE: SOP

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-SOP-001	SOP	Reviewer creates a new SOP with steps	SOP created as Active/Draft with steps saved	Created successfully	Pass	2026-07-26 14:02:20
TC-SOP-002	SOP	Team Member (not authorized) tries to create an SOP	Blocked, only Reviewer/Admin/SuperAdmin can create	Correctly blocked	Pass	2026-07-26 14:02:20
TC-SOP-003	SOP	Reviewer tries to create an SOP with no title	Validation error, title and category required	Correctly rejected	Pass	2026-07-26 14:02:20
TC-SOP-004	SOP	Team Member searches/lists SOPs visible to them	Visible SOPs shown per visibility rules	Shown correctly	Pass	2026-07-26 14:02:20
TC-SOP-005	SOP	Reviewer views full details of the SOP they created	Full SOP details with steps shown	Shown correctly	Pass	2026-07-26 14:02:20
TC-SOP-006	SOP	User looks up an SOP ID that doesn't exist	Not found error shown	Correctly shown as not found	Pass	2026-07-26 14:02:20
TC-SOP-007	SOP	Reviewer downloads the SOP as a PDF	PDF file generated and returned	Generated successfully	Pass	2026-07-26 14:02:20
TC-SOP-008	SOP	Reviewer (author) updates the SOP's description	SOP updated, new version archived since it was Active	Updated successfully, version incremented	Pass	2026-07-26 14:02:20
TC-SOP-009	SOP	Facilitator (not an allowed role) tries to update the SOP	Blocked, role not permitted to update SOPs	Correctly blocked	Pass	2026-07-26 14:02:20
TC-SOP-010	SOP	Reviewer renames the SOP without creating a new version	Title updated, version unchanged	Renamed successfully	Pass	2026-07-26 14:02:20
TC-SOP-	SOP	Reviewer tries to rename the SOP to a blank title	Validation error, title required	Correctly rejected	Pass	2026-07-26 14:02:20

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
011						
TC-SOP-012	SOP	Facilitator approves the SOP through the approval workflow	Approval recorded	Approval recorded successfully	Pass	2026-07-26 14:02:20
TC-SOP-013	SOP	Reviewer compares two versions of the SOP	Field-by-field diff shown (or a clear message if only one version exists)	Handled without crashing	Pass	2026-07-26 14:02:20
TC-SOP-014	SOP	Reviewer tries to assign training with no target specified	Validation error, at least one target required	Correctly rejected	Pass	2026-07-26 14:02:20
TC-SOP-015	SOP	Reviewer assigns SOP training to a specific Team Member	Training assigned, user notified	Assigned successfully	Pass	2026-07-26 14:02:20
TC-SOP-016	SOP	Reviewer views the training dashboard for SOPs they manage	Training completion overview shown	Shown correctly	Pass	2026-07-26 14:02:20
TC-SOP-017	SOP	Team Member reads the SOP, tracking scroll % and time spent	Reading marked complete once 100% scrolled and 5+ seconds spent	Read status correctly marked complete	Pass	2026-07-26 14:02:20
TC-SOP-018	SOP	Team Member tries to acknowledge training with no digital signature	Validation error, signature required	Correctly rejected	Pass	2026-07-26 14:02:20
TC-SOP-019	SOP	Team Member acknowledges training with a valid digital signature	Acknowledgement recorded, training completed or moved to assessment	Acknowledged successfully	Pass	2026-07-26 14:02:20
TC-SOP-020	SOP	Team Member views their own training results	Results/status shown	Shown correctly	Pass	2026-07-26 14:02:20
TC-SOP-021	SOP	Team Member downloads their completion certificate	Certificate generated (if training was completed without an assessment gate)	Handled correctly	Pass	2026-07-26 14:02:20
TC-SOP	SOP	Reviewer adds an assessment	Question saved	Saved successfully	Pass	2026-07-26

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
- 022		question to the SOP				14:02:20
TC-SOP - 023	SOP	Team Member views the assessment questions for a required SOP	Question list shown (without revealing correct answers)	Shown correctly	Pass	2026-07-26 14:02:20
TC-SOP - 024	SOP	Team Member adds a feedback comment on the SOP	Comment saved with an auto-classified type	Saved successfully	Pass	2026-07-26 14:02:20
TC-SOP - 025	SOP	Team Member tries to submit an empty comment	Validation error, content required	Correctly rejected	Pass	2026-07-26 14:02:20
TC-SOP - 026	SOP	Reviewer views all comments on the SOP	Comment thread shown, newest first	Comments shown correctly	Pass	2026-07-26 14:02:20
TC-SOP - 027	SOP	Reviewer records an internal audit against the SOP	Audit record created	Recorded successfully	Pass	2026-07-26 14:02:20
TC-SOP - 028	SOP	Reviewer views the audit report history for the SOP	Audit history shown	Shown correctly	Pass	2026-07-26 14:02:20
TC-SOP - 029	SOP	Reviewer views the compliance/training completion report for the SOP	Completion stats shown	Shown correctly	Pass	2026-07-26 14:02:20
TC-SOP - 030	SOP	Reviewer archives the SOP	SOP marked Archived and read-only	Archived successfully	Pass	2026-07-26 14:02:20
TC-SOP - 031	SOP	Reviewer restores the archived SOP	SOP set back to Active	Restored successfully	Pass	2026-07-26 14:02:20
TC-SOP - 032	SOP	Facilitator (not the author/owner) tries to delete the SOP	Blocked, not authorized	Correctly blocked	Pass	2026-07-26 14:02:20
TC-	SOP	Org Admin deletes	SOP deleted successfully -	Admin was	Fail	2026-07-

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
SOP - 033		the SOP (not the author, but has the Admin role)	Admins should be able to manage any SOP	blocked from deleting an SOP they didn't author		26 14:02:20
TC-SOP - 034	SOP	Admin tries to delete an SOP ID that doesn't exist	Not found error shown	Correctly shown as not found	Pass	2026-07-26 14:02:20
TC-SOP - 035	SOP	Team Member views their SOP training notifications	Notification list shown	Shown correctly	Pass	2026-07-26 14:02:20
TC-SOP - 036	SOP	Reviewer views overall SOP analytics for the organization	Aggregate SOP stats shown	Shown correctly	Pass	2026-07-26 14:02:20
TC-SOP - 037	SOP	Reviewer uploads a supporting image/file for an SOP step	File uploaded, URL returned	Upload crashed with a server error	Fail	2026-07-26 14:02:20
TC-SOP - 038	SOP	User tries to upload an SOP file without being logged in	Blocked, login required	Correctly blocked	Pass	2026-07-26 14:02:20

SOP: 38 test cases, 36 passed, 2 failed.

MODULE: QC TOOLS

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-QC-001	QC Tools	Team Leader (not Team Member) tries to save Pareto data	Blocked, only Team Members can add/edit Stage 3 details	Correctly blocked	Pass	2026-07-26 14:02:23
TC-QC-002	QC Tools	A Team Member not assigned to this project tries to save Pareto data	Blocked, not a project member	Correctly blocked	Pass	2026-07-26 14:02:23
TC-QC-003	QC Tools	Reviewer (assigned to this project) views the Pareto chart	Allowed, Reviewer can view Stage 3 tools	Correctly allowed	Pass	2026-07-26 14:02:23
TC-QC-004	QC Tools	Team Member saves Pareto chart data with cause/frequency pairs	Data saved, cumulative percentages calculated	Saved successfully with cumulative % calculated	Pass	2026-07-26 14:02:23
TC-QC-005	QC Tools	Team Member submits Pareto data with an empty array	Validation error, data must be a non-empty array	Correctly rejected	Pass	2026-07-26 14:02:23
TC-QC-006	QC Tools	Team Member views the saved Pareto chart	Chart data with cumulative % returned	Shown correctly	Pass	2026-07-26 14:02:23
TC-QC-007	QC Tools	Team Member saves a fishbone diagram with causes under Man/Machine categories	Diagram saved, synced to Stage 3 model	Saved successfully	Pass	2026-07-26 14:02:24
TC-QC-008	QC Tools	Team Member views the saved fishbone diagram	6M categories with causes returned	Retrieving the fishbone diagram crashed with a server error	Fail	2026-07-26 14:02:24
TC-QC-009	QC Tools	Team Member saves histogram data with a set of measurements	Bins calculated and saved	Saved successfully	Pass	2026-07-26 14:02:24
TC-QC-010	QC Tools	Team Member submits histogram data with fewer than 2 values	Validation error, at least 2 values required	Correctly rejected	Pass	2026-07-26 14:02:24
TC-QC-011	QC Tools	Team Member views the saved histogram	Bin data returned	Shown correctly	Pass	2026-07-26 14:02:24
TC-QC-012	QC Tools	Team Member saves control chart data including one clear	UCL/LCL calculated, outlier flagged as out-of-	Outlier correctly flagged as out-of-control	Pass	2026-07-26 14:02:24

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
		outlier among enough stable points	control			
TC-QC-013	QC Tools	Team Member submits control chart data with fewer than 3 points	Validation error, at least 3 points required	Correctly rejected	Pass	2026-07-26 14:02:24
TC-QC-014	QC Tools	Team Member views the saved control chart	Mean/UCL/LCL and points returned	Shown correctly	Pass	2026-07-26 14:02:24
TC-QC-015	QC Tools	Team Member views the control chart via the shorter alias URL (/control)	Same control chart data returned	Shown correctly via alias route	Pass	2026-07-26 14:02:24
TC-QC-016	QC Tools	Team Member saves scatter diagram points showing a clear correlation	Correlation calculated and saved	Saved successfully	Pass	2026-07-26 14:02:24
TC-QC-017	QC Tools	Team Member submits scatter data with fewer than 3 points	Validation error, at least 3 points required	Correctly rejected	Pass	2026-07-26 14:02:24
TC-QC-018	QC Tools	Team Member views the saved scatter diagram	Points and correlation returned	Shown correctly	Pass	2026-07-26 14:02:24
TC-QC-019	QC Tools	Team Member saves check sheet tally data by defect type	Rows saved with totals	Saved successfully	Pass	2026-07-26 14:02:24
TC-QC-020	QC Tools	Team Member views the saved check sheet	Defect tally rows returned	Shown correctly	Pass	2026-07-26 14:02:24
TC-QC-021	QC Tools	Team Member saves a process flowchart with a decision step	Flowchart converted to diagram format and saved	Saved successfully	Pass	2026-07-26 14:02:24
TC-QC-022	QC Tools	Team Member views the saved flowchart	Flowchart diagram data returned	Shown correctly	Pass	2026-07-26 14:02:24
TC-QC-023	QC Tools	Team Member submits 5S audit scores for each category	Average score calculated and saved	Saved successfully	Pass	2026-07-26 14:02:24
TC-QC-024	QC Tools	Team Member submits a 5S score above the maximum (99 instead of 0-5)	Score clamped to the valid 0-5 range	Score correctly clamped to 5	Pass	2026-07-26 14:02:24
TC-QC-	QC	Team Member views	Scores and average	Shown correctly	Pass	2026-07-26

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
025	Tools	the saved 5S audit	returned			14:02:24
TC-QC-026	QC Tools	Team Member logs a Poka-Yoke (error-proofing) entry	Entry saved with effectiveness rating	Saved successfully	Pass	2026-07-26 14:02:24
TC-QC-027	QC Tools	Team Member views the saved Poka-Yoke log	Log entries returned	Shown correctly	Pass	2026-07-26 14:02:24
TC-QC-028	QC Tools	Team Member saves stratification data broken down by shift	Data saved with category type	Saved successfully	Pass	2026-07-26 14:02:24
TC-QC-029	QC Tools	Team Member submits stratification data that isn't a valid array	Validation error, data must be an array of {factor, count}	Correctly rejected	Pass	2026-07-26 14:02:24
TC-QC-030	QC Tools	Team Member views the saved stratification chart	Factor/count breakdown returned	Shown correctly	Pass	2026-07-26 14:02:24

QC Tools: 30 test cases, 29 passed, 1 failed.

MODULE: ANALYTICS

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-AN-001	Analytics	Team Member views their own project performance dashboard	Dashboard data for their org shown	Shown correctly	Pass	2026-07-26 14:02:26
TC-AN-002	Analytics	Regular Team Member views the enterprise analytics dashboard	Some level of dashboard access shown (scoped to their own org by parse_filters)	Accessible - confirms non-admin roles can reach this dashboard	Pass	2026-07-26 14:02:26
TC-AN-003	Analytics	Super Admin views the platform-wide enterprise dashboard	Platform-wide KPIs shown	Shown correctly	Pass	2026-07-26 14:02:26
TC-AN-004	Analytics	Regular Team Member tries to view platform-wide organization analytics	Blocked, Admin/SuperAdmin required	Correctly blocked	Pass	2026-07-26 14:02:26
TC-AN-005	Analytics	Super Admin views platform-wide organization analytics	Industry/country/plan distribution shown	Shown correctly	Pass	2026-07-26 14:02:26
TC-AN-006	Analytics	Regular Team Member tries to view system health analytics	Blocked, Admin/SuperAdmin required	Correctly blocked	Pass	2026-07-26 14:02:26
TC-AN-007	Analytics	Super Admin views system health analytics	CPU/memory/uptime stats shown	Shown correctly	Pass	2026-07-26 14:02:26
TC-AN-008	Analytics	Team Member views user analytics for their own organization	Their own org's user stats shown, properly scoped	Shown correctly, scoped to own org	Pass	2026-07-26 14:02:26
TC-AN-009	Analytics	Team Member views license analytics	Their own org's license status shown	Shown correctly	Pass	2026-07-26 14:02:26
TC-AN-010	Analytics	Team Member views subscription analytics	Their own org's subscription stats shown	Shown correctly	Pass	2026-07-26 14:02:26
TC-AN-011	Analytics	Team Member views module usage analytics	Module usage breakdown shown	Shown correctly	Pass	2026-07-26 14:02:26

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-AN-012	Analytics	Team Member in Org A views support ticket analytics, checking for Org B's tickets leaking in	Priority breakdown scoped to their own organization only	Org B's ticket data appeared in Org A's support analytics	Fail	2026-07-26 14:02:26
TC-AN-013	Analytics	Team Member views AI-generated insights and recommendations	Org-scoped recommendations shown	Shown correctly	Pass	2026-07-26 14:02:26
TC-AN-014	Analytics	Regular Team Member views revenue analytics	Some response returned (check_rbac allows by default unless a billing sub-role restricts it)	Handled without crashing	Pass	2026-07-26 14:02:26
TC-AN-015	Analytics	Regular Team Member checks the realtime analytics feed	Should show only data relevant to their own org, if anything	Platform-wide live user count, org count, and revenue estimate returned to a regular Team Member	Fail	2026-07-26 14:02:26
TC-AN-016	Analytics	Org Admin creates a custom analytics report	Report saved with the given config	Created successfully	Pass	2026-07-26 14:02:26
TC-AN-017	Analytics	Org Admin tries to create a report with no title or config	Validation error, title and config required	Correctly rejected	Pass	2026-07-26 14:02:26
TC-AN-018	Analytics	Org Admin views their organization's saved reports	Their own reports listed	Shown correctly	Pass	2026-07-26 14:02:26
TC-AN-019	Analytics	Org Admin schedules a recurring delivery of their report	Schedule created	Scheduled successfully	Pass	2026-07-26 14:02:26
TC-AN-020	Analytics	Admin from a different organization tries to delete another org's report	Blocked, unauthorized	Correctly blocked	Pass	2026-07-26 14:02:26
TC-AN-021	Analytics	Org Admin deletes their own report	Report deleted successfully	Deleted successfully	Pass	2026-07-26 14:02:26
TC-	Analytics	Org Admin tries to	Not found error shown	Correctly	Pass	2026-07-

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
AN-022		delete a report ID that doesn't exist		shown as not found		26 14:02:26
TC-AN-023	Analytics	Org Admin exports performance analytics as CSV	CSV file returned	Exported successfully	Pass	2026-07-26 14:02:26
TC-AN-024	Analytics	Org Admin exports a custom report	Export generated	Exported successfully	Pass	2026-07-26 14:02:26
TC-AN-025	Analytics	Org Admin drills down into user-level analytics detail	Row-level user detail shown, scoped to their org	Shown correctly	Pass	2026-07-26 14:02:26
TC-AN-026	Analytics	Super Admin drills down into revenue analytics across all organizations	Row-level subscription/invoice detail shown	Shown correctly	Pass	2026-07-26 14:02:26
TC-AN-027	Analytics	Admin views QC Tools usage analytics for a project ID that doesn't exist	Handled gracefully, not a crash	Handled without crashing	Pass	2026-07-26 14:02:26
TC-AN-028	Analytics	User tries to view the dashboard without being logged in	Blocked, login required	Correctly blocked	Pass	2026-07-26 14:02:26

Analytics: 28 test cases, 26 passed, 2 failed.

MODULE: REPORTS/INTEGRATION/RAG/TEAMMEMBER/NOTIFICATIONS

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-MISC-001	Reports/Integration/RAG/TeamMember/Notifications	Team Leader exports their accessible projects to Excel	Excel file returned	Exported successfully	Pass	2026-07-26 14:02:28
TC-MISC-002	Reports/Integration/RAG/TeamMember/Notifications	Team Leader exports their accessible projects to CSV	CSV file returned	Export crashed with a server error	Fail	2026-07-26 14:02:28
TC-MISC-003	Reports/Integration/RAG/TeamMember/Notifications	User downloads the mock/sample report file	Sample file returned	Downloaded successfully	Pass	2026-07-26 14:02:28
TC-MISC-004	Reports/Integration/RAG/TeamMember/Notifications	Team Leader exports a single project's QC Story as PDF	PDF file returned	Export crashed with a server error	Fail	2026-07-26 14:02:28
TC-MISC-005	Reports/Integration/RAG/TeamMember/Notifications	A Team Member who IS assigned to the project exports its PDF report	Allowed, they're a project member	Blocked by the same missing-dependency crash as above, not a permissions issue	Fail	2026-07-26 14:02:28
TC-MISC-006	Reports/Integration/RAG/TeamMember/Notifications	A Team Member NOT assigned to the project tries to export its PDF report	Blocked, unauthorized	Correctly blocked	Pass	2026-07-26 14:02:29
TC-MISC-007	Reports/Integration/RAG/TeamMember/Notifications	User tries to export a PDF for a project ID that doesn't exist	Not found error shown	Correctly shown as not found	Pass	2026-07-26 14:02:29
TC-MISC	Reports/Integration/RAG/TeamMember/Notifications	External developer	OpenAPI 3.1 JSON	Returned correctly	Pass	2026-07-26

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
C-008		fetches the public OpenAPI spec (no auth required)	returned			14:02:29
TC-MISC-009	Reports/Integration/RAG/TeamMember/Notifications	External developer fetches the public Postman collection (no auth required)	Postman collection JSON returned	Returned correctly	Pass	2026-07-26 14:02:29
TC-MISC-010	Reports/Integration/RAG/TeamMember/Notifications	External system calls the status endpoint with no API key	Blocked, Bearer API key required	Correctly blocked	Pass	2026-07-26 14:02:29
TC-MISC-011	Reports/Integration/RAG/TeamMember/Notifications	Admin generates an integration API key to use with the external API	Key generated	Key generated successfully	Pass	2026-07-26 14:02:29
TC-MISC-012	Reports/Integration/RAG/TeamMember/Notifications	External system calls the status endpoint with a valid API key	Online status returned, scoped to the org that owns the key	Returned correctly	Pass	2026-07-26 14:02:29
TC-MISC-013	Reports/Integration/RAG/TeamMember/Notifications	External Ideation Tool imports a new approved idea via the API	Idea stored successfully	Imported successfully	Pass	2026-07-26 14:02:29
TC-MISC-014	Reports/Integration/RAG/TeamMember/Notifications	External system tries to import the same idea code twice	Blocked, already imported	Correctly rejected as a duplicate	Pass	2026-07-26 14:02:29
TC-	Reports/Integration/RAG/TeamMember	External	Validatio	Correctly	Pass	2026-

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
MIS C-015	/Notifications	system submits an idea with no idea code	n error, ideaCode and title required	rejected		07-26 14:02:29
TC-MIS C-016	Reports/Integration/RAG/TeamMember/Notifications	External system lists ideas imported for its organization	Imported idea list returned	Shown correctly	Pass	2026-07-26 14:02:29
TC-MIS C-017	Reports/Integration/RAG/TeamMember/Notifications	External system tries to import an idea using an invalid/fake API key	Blocked, invalid API key	Correctly blocked	Pass	2026-07-26 14:02:29
TC-MIS C-018	Reports/Integration/RAG/TeamMember/Notifications	Team Leader asks the AI quality assistant a question	Either a chat response, or a clear 'feature not available' message for their plan	Handled without crashing	Pass	2026-07-26 14:02:29
TC-MIS C-019	Reports/Integration/RAG/TeamMember/Notifications	Team Leader submits a chat request with no query text	Validation error, query required (if the feature is enabled) or feature-disabled message	Handled correctly	Pass	2026-07-26 14:02:29
TC-MIS C-020	Reports/Integration/RAG/TeamMember/Notifications	Team Leader checks whether the AI knowledge index is initialized	Index status shown	Shown correctly	Pass	2026-07-26 14:02:29
TC-MIS C-	Reports/Integration/RAG/TeamMember/Notifications	Team Leader checks the AI assistant's	DB connection,	Health info shown	Pass	2026-07-26 14:02:29

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
021		health/diagnostics	pgvector, and model status shown	correctly		9
TC-MISC-022	Reports/Integration/RAG/TeamMember/Notifications	Team Member views their own list of assigned projects	Only their assigned projects shown	Correct project list shown	Pass	2026-07-26 14:02:29
TC-MISC-023	Reports/Integration/RAG/TeamMember/Notifications	Team Leader (not a Team Member) tries to use the Team Member workspace endpoint	Blocked, Team Member access required	Correctly blocked	Pass	2026-07-26 14:02:29
TC-MISC-024	Reports/Integration/RAG/TeamMember/Notifications	Team Member views their project workspace (stage data included)	Project details with stage_data map shown	Shown correctly	Pass	2026-07-26 14:02:29
TC-MISC-025	Reports/Integration/RAG/TeamMember/Notifications	A Team Member NOT on this project tries to view its workspace	Blocked, not assigned to this project	Correctly blocked	Pass	2026-07-26 14:02:29
TC-MISC-026	Reports/Integration/RAG/TeamMember/Notifications	Team Member tries to update Stage 5 data (Reviewer-only stage)	Blocked, Stage 5 is read-only for Team Members	Correctly blocked	Pass	2026-07-26 14:02:29
TC-MISC-027	Reports/Integration/RAG/TeamMember/Notifications	Team Member updates their own project's Stage 2 data	Stage data updated successfully	Updated successfully	Pass	2026-07-26 14:02:29
TC-MISC	Reports/Integration/RAG/TeamMember/Notifications	Team Member	Validation error,	Correctly rejected	Pass	2026-07-26

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
C-028		submits a stage update with no project_id	project_id required			14:02:29
TC-MISC-029	Reports/Integration/RAG/TeamMember/Notifications	Team Leader views their notifications	Notification list shown (includes project-assignment notifications)	Shown correctly	Pass	2026-07-26 14:02:29
TC-MISC-030	Reports/Integration/RAG/TeamMember/Notifications	Team Leader marks all their notifications as read	All notifications marked read	Marked as read successfully	Pass	2026-07-26 14:02:29
TC-MISC-031	Reports/Integration/RAG/TeamMember/Notifications	Team Leader clears all their notifications	All notifications deleted	Cleared successfully	Pass	2026-07-26 14:02:29
TC-MISC-032	Reports/Integration/RAG/TeamMember/Notifications	User tries to view notifications without being logged in	Blocked, login required	Correctly blocked	Pass	2026-07-26 14:02:29
TC-MISC-033	Reports/Integration/RAG/TeamMember/Notifications	Team Leader views recent activity on the dashboard	Recent audit log entries for their scope shown	Shown correctly	Pass	2026-07-26 14:02:29
TC-MISC-034	Reports/Integration/RAG/TeamMember/Notifications	Team Member views recent activity on the dashboard (scoped to their own projects)	Only activity from projects they're a member of shown	Shown correctly	Pass	2026-07-26 14:02:29

Reports/Integration/RAG/TeamMember/Notifications: 34 test cases, 31 passed, 3 failed.

MODULE: REVIEWER

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-REV-001	Reviewer	Reviewer views their review stats dashboard	Pending/approved/rejected counts shown	Shown correctly	Pass	2026-07-26 14:02:33
TC-REV-002	Reviewer	Team Member (not Reviewer/Admin) tries to view reviewer stats	Blocked, Reviewer/Admin access required	Correctly blocked	Pass	2026-07-26 14:02:33
TC-REV-003	Reviewer	Reviewer views the list of projects pending their review	Pending projects shown	Shown correctly	Pass	2026-07-26 14:02:33
TC-REV-004	Reviewer	Reviewer views their review queue	Queue shown	Shown correctly	Pass	2026-07-26 14:02:33
TC-REV-005	Reviewer	Reviewer views their past review decision history	History list shown	Shown correctly	Pass	2026-07-26 14:02:33
TC-REV-006	Reviewer	Reviewer views projects awaiting impact assessment	List shown	Shown correctly	Pass	2026-07-26 14:02:33
TC-REV-007	Reviewer	Reviewer views projects awaiting closure	List shown	Shown correctly	Pass	2026-07-26 14:02:33
TC-REV-008	Reviewer	Reviewer approves Stage 1 of a project via the decision endpoint	Decision processed, stage advanced	Processed successfully	Pass	2026-07-26 14:02:33
TC-REV-009	Reviewer	Reviewer submits a decision with no comments	Validation error, comments required	Correctly rejected	Pass	2026-07-26 14:02:33
TC-REV-010	Reviewer	Reviewer submits an invalid decision value	Invalid decision error shown	Correctly rejected	Pass	2026-07-26 14:02:33
TC-REV-011	Reviewer	Reviewer adds a private note to a project	Note saved	Saved successfully	Pass	2026-07-26 14:02:33

Reviewer: 11 test cases, 11 passed, 0 failed.

MODULE: TEAM LEADER

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-TL-001	Team Leader	Team Leader views their department dashboard	Dashboard KPIs shown	Shown correctly	Pass	2026-07-26 14:02:33
TC-TL-002	Team Leader	Team Leader views members in their department	Department members listed	Shown correctly	Pass	2026-07-26 14:02:33
TC-TL-003	Team Leader	Team Leader views their list of projects	Their projects listed	Shown correctly	Pass	2026-07-26 14:02:33
TC-TL-004	Team Leader	Team Leader views one of their project's details via this dashboard route	Project details shown	Shown correctly	Pass	2026-07-26 14:02:33
TC-TL-005	Team Leader	Team Leader views their action queue (pending tasks)	Queue shown	Shown correctly	Pass	2026-07-26 14:02:33
TC-TL-006	Team Leader	Team Leader views their team's workload distribution	Workload breakdown shown	Shown correctly	Pass	2026-07-26 14:02:33
TC-TL-007	Team Leader	Team Leader uploads an evidence file via this dashboard route	File uploaded, URL returned	Uploaded successfully	Pass	2026-07-26 14:02:33
TC-TL-008	Team Leader	Reviewer (not Team Leader/Member/Admin) tries to view the Team Leader dashboard	Blocked, role not permitted	Correctly blocked	Pass	2026-07-26 14:02:33

Team Leader: 8 test cases, 8 passed, 0 failed.

MODULE: CEO

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-CEO-001	CEO	CEO views the executive summary dashboard	Org-wide summary shown	Shown correctly	Pass	2026-07-26 14:02:33
TC-CEO-002	CEO	Team Member (not CEO/Admin/SuperAdmin) tries to view the executive summary	Blocked, role not permitted	Correctly blocked	Pass	2026-07-26 14:02:33
TC-CEO-003	CEO	CEO views the top contributors leaderboard	Ranked contributor list shown	Shown correctly	Pass	2026-07-26 14:02:33
TC-CEO-004	CEO	CEO views strategic analytics	Strategic KPIs shown	Shown correctly	Pass	2026-07-26 14:02:33
TC-CEO-005	CEO	CEO views organization health score	Health score and factors shown	Shown correctly	Pass	2026-07-26 14:02:33
TC-CEO-006	CEO	CEO views flagged priority initiatives	Initiative list shown	Shown correctly	Pass	2026-07-26 14:02:33
TC-CEO-007	CEO	CEO exports the executive report	Export file returned	Exported successfully	Pass	2026-07-26 14:02:33

CEO: 7 test cases, 7 passed, 0 failed.

MODULE: AUDIT

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-AUD-001	Audit	Admin views the security/audit dashboard	Audit KPIs shown	Shown correctly	Pass	2026-07-26 14:02:33
TC-AUD-002	Audit	Team Member tries to view the audit dashboard	Blocked, elevated role required	Correctly blocked	Pass	2026-07-26 14:02:33
TC-AUD-003	Audit	Admin views the detailed audit log list	Audit log entries shown	Shown correctly	Pass	2026-07-26 14:02:33
TC-AUD-004	Audit	Admin views a specific audit log entry's full details	Full entry detail shown	Shown correctly	Pass	2026-07-26 14:02:33
TC-AUD-005	Audit	Admin looks up an audit log ID that doesn't exist	Not found error shown	Correctly shown as not found	Pass	2026-07-26 14:02:33
TC-AUD-006	Audit	Admin views active user sessions	Session list shown	Shown correctly	Pass	2026-07-26 14:02:33
TC-AUD-007	Audit	Admin views AI-derived audit insights	Insight list shown	Shown correctly	Pass	2026-07-26 14:02:33
TC-AUD-008	Audit	Admin checks audit log integrity/tamper status	Integrity check result shown	Shown correctly	Pass	2026-07-26 14:02:33
TC-AUD-009	Audit	Admin exports the audit log	Export file returned	Exported successfully	Pass	2026-07-26 14:02:33
TC-AUD-010	Audit	Admin tries to terminate a session ID that doesn't exist	Handled gracefully, not a crash	Handled cleanly	Pass	2026-07-26 14:02:33

Audit: 10 test cases, 10 passed, 0 failed.

MODULE: DASHBOARD

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-DASH-001	Dashboard	Admin views the org KPI summary widget	Summary KPIs shown	Shown correctly	Pass	2026-07-26 14:02:33
TC-DASH-002	Dashboard	Admin views project/performance trends over time	Trend data shown	Shown correctly	Pass	2026-07-26 14:02:33
TC-DASH-003	Dashboard	Admin views a department-by-department comparison	Comparison data shown	Shown correctly	Pass	2026-07-26 14:02:34
TC-DASH-004	Dashboard	Admin views top-performing projects	Ranked list shown	Shown correctly	Pass	2026-07-26 14:02:34
TC-DASH-005	Dashboard	Admin views cost variance analysis	Variance data shown	Shown correctly	Pass	2026-07-26 14:02:34
TC-DASH-006	Dashboard	Admin views upcoming project meetings	Meeting list shown	Shown correctly	Pass	2026-07-26 14:02:34

Dashboard: 6 test cases, 6 passed, 0 failed.

MODULE: WORKFLOW

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-WF-001	Workflow	Team Leader views Stage 1 workflow data via the workflow API	Stage data shown	Shown correctly	Pass	2026-07-26 14:02:34
TC-WF-002	Workflow	Team Leader updates Stage 1 data via the workflow API	Stage data updated, project title synced	Updated successfully	Pass	2026-07-26 14:02:34
TC-WF-003	Workflow	Team Leader tries to update a stage ahead of the project's current stage	Blocked, cannot update future stages	Correctly rejected	Pass	2026-07-26 14:02:34
TC-WF-004	Workflow	Team Leader views the review history for their project	Review records shown	Crashed with a server error	Fail	2026-07-26 14:02:34
TC-WF-005	Workflow	Team Leader views Stage 1 via the alternate /projects/.../stages/ path	Same stage data shown	Shown correctly	Pass	2026-07-26 14:02:34
TC-WF-006	Workflow	Team Leader triggers a stage transition via the transitions endpoint	Handled without crashing	Handled cleanly	Pass	2026-07-26 14:02:34
TC-WF-007	Workflow	User looks up workflow data for a project ID that doesn't exist	Not found error shown, not a crash	Handled cleanly	Pass	2026-07-26 14:02:34

Workflow: 7 test cases, 6 passed, 1 failed.

MODULE: SUPPORT

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-SUP-001	Support	Admin views the support ticket dashboard	Ticket KPIs shown	Shown correctly	Pass	2026-07-26 14:02:34
TC-SUP-002	Support	Team Member creates a support ticket	Ticket created	Created successfully	Pass	2026-07-26 14:02:34
TC-SUP-003	Support	Team Member creates a ticket with no description	Validation error, subject and description required	Correctly rejected	Pass	2026-07-26 14:02:34
TC-SUP-004	Support	Team Member views their own submitted tickets	Their tickets listed	Shown correctly	Pass	2026-07-26 14:02:34
TC-SUP-005	Support	Admin tries to escalate a ticket ID that doesn't exist	Not found error shown, not a crash	Handled cleanly	Pass	2026-07-26 14:02:34
TC-SUP-006	Support	Team Member browses the support knowledge base	Articles listed	Shown correctly	Pass	2026-07-26 14:02:34
TC-SUP-007	Support	Admin adds a new knowledge base article	Article created	Created successfully	Pass	2026-07-26 14:02:34
TC-SUP-008	Support	Team Member asks the support AI assistant a question	Response returned, or a clear unavailable message	Handled without crashing	Pass	2026-07-26 14:02:34
TC-SUP-009	Support	Admin exports all support tickets	Export file returned	Exported successfully	Pass	2026-07-26 14:02:34

Support: 9 test cases, 9 passed, 0 failed.

MODULE: MODULES

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-MOD-001	Modules	Super Admin views the platform module catalogue	Module list shown	Shown correctly	Pass	2026-07-26 14:02:34
TC-MOD-002	Modules	Regular Org Admin tries to view the platform module catalogue	Blocked, Super Admin required	Was allowed	Fail	2026-07-26 14:02:34
TC-MOD-003	Modules	Super Admin views the module management dashboard	Module usage overview shown	Shown correctly	Pass	2026-07-26 14:02:34
TC-MOD-004	Modules	Super Admin creates a new platform module	Module created successfully	Created successfully	Pass	2026-07-26 14:02:34
TC-MOD-005	Modules	Super Admin tries to create another module with the same code	Blocked, code already exists	Correctly rejected	Pass	2026-07-26 14:02:34
TC-MOD-006	Modules	Super Admin tries to delete a module ID that doesn't exist	Not found error shown	Correctly shown as not found	Pass	2026-07-26 14:02:34

Modules: 6 test cases, 5 passed, 1 failed.

MODULE: FACILITATOR

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-FAC-001	Facilitator	Facilitator views their facilitation stats dashboard	Stats shown	Shown correctly	Pass	2026-07-26 14:02:37
TC-FAC-002	Facilitator	Team Member (not Facilitator/Admin) tries to view facilitator stats	Blocked, role not permitted	Correctly blocked	Pass	2026-07-26 14:02:37
TC-FAC-003	Facilitator	Facilitator views projects they're assigned to	Assigned projects listed	Shown correctly	Pass	2026-07-26 14:02:37
TC-FAC-004	Facilitator	Facilitator views their completed projects	Completed project list shown	Shown correctly	Pass	2026-07-26 14:02:37
TC-FAC-005	Facilitator	Facilitator views projects needing root-cause-analysis validation	RCA workspace list shown	Shown correctly	Pass	2026-07-26 14:02:37
TC-FAC-006	Facilitator	Facilitator views projects needing impact review	Impact review list shown	Shown correctly	Pass	2026-07-26 14:02:37
TC-FAC-007	Facilitator	Facilitator views projects pending closure	Closure workspace list shown	Shown correctly	Pass	2026-07-26 14:02:37
TC-FAC-008	Facilitator	Facilitator views assistance requests from their teams	Request list shown	Shown correctly	Pass	2026-07-26 14:02:37
TC-FAC-009	Facilitator	Facilitator adds a private note to a project	Note saved	Saved successfully	Pass	2026-07-26 14:02:37
TC-FAC-010	Facilitator	Facilitator views their notes for a project	Notes list shown	Shown correctly	Pass	2026-07-26 14:02:37
TC-FAC-011	Facilitator	Facilitator validates root cause analysis for a project not yet at Stage 5	Blocked, project must reach Stage 5 first	Correctly rejected with a clear stage requirement	Pass	2026-07-26 14:02:37
TC-FAC-012	Facilitator	Facilitator posts before/after impact data for a project not yet at Stage 8	Blocked, project must reach Stage 8 first	Correctly rejected with a clear stage requirement	Pass	2026-07-26 14:02:37
TC-FAC-013	Facilitator	Facilitator approves impact for a project not yet at Stage 8	Blocked, project must reach Stage 8 first	Correctly rejected with a clear stage requirement	Pass	2026-07-26 14:02:37

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-FAC-014	Facilitator	Facilitator approves a Stage 8 submission for a project not yet at Stage 8	Blocked, project must be in Stage 8	Correctly rejected with a clear stage requirement	Pass	2026-07-26 14:02:37
TC-FAC-015	Facilitator	Facilitator tries to complete final project closure directly	Blocked - by design, only a Reviewer can close a project	Correctly blocked with a clear reason	Pass	2026-07-26 14:02:37

Facilitator: 15 test cases, 15 passed, 0 failed.

MODULE: ANNOUNCEMENTS

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-ANN-001	Announcements	Super Admin views the list of announcements	Announcements listed	Shown correctly	Pass	2026-07-26 14:02:37
TC-ANN-002	Announcements	Regular Team Member tries to manage announcements	Blocked, role not permitted	Correctly blocked	Pass	2026-07-26 14:02:37
TC-ANN-003	Announcements	Super Admin creates a new announcement	Announcement created as Draft	Created successfully	Pass	2026-07-26 14:02:37
TC-ANN-004	Announcements	Super Admin views the announcements dashboard	Delivery/engagement stats shown	Shown correctly	Pass	2026-07-26 14:02:37
TC-ANN-005	Announcements	Super Admin views a specific announcement's details	Full details shown	Shown correctly	Pass	2026-07-26 14:02:37
TC-ANN-006	Announcements	Super Admin updates a draft announcement's content	Content updated	Updated successfully	Pass	2026-07-26 14:02:37
TC-ANN-007	Announcements	Super Admin publishes the announcement	Announcement published and delivered	Published successfully	Pass	2026-07-26 14:02:37
TC-ANN-008	Announcements	Super Admin views the delivery status of the published announcement	Delivery stats shown	Shown correctly	Pass	2026-07-26 14:02:37
TC-ANN-009	Announcements	Super Admin views who has read the announcement	Read receipts shown	Shown correctly	Pass	2026-07-26 14:02:37
TC-ANN-010	Announcements	Super Admin views the audit trail for the announcement	Action history shown	Shown correctly	Pass	2026-07-26 14:02:37
TC-ANN-011	Announcements	Super Admin duplicates the announcement	New draft copy created	Duplicated successfully	Pass	2026-07-26 14:02:37
TC-ANN-	Announcements	Super Admin unpublishes the	Announcement	Unpublished	Pass	2026-07-26

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
012		announcement	unpublished	successfully		14:02:37
TC-ANN-013	Announcements	Super Admin archives the announcement	Announcement archived	Archived successfully	Pass	2026-07-26 14:02:37
TC-ANN-014	Announcements	Super Admin deletes the announcement	Announcement deleted	Deleted successfully	Pass	2026-07-26 14:02:37
TC-ANN-015	Announcements	Super Admin exports the announcements list	Export file returned	Exported successfully	Pass	2026-07-26 14:02:37
TC-ANN-016	Announcements	Super Admin views AI insights on announcement engagement	Insights shown	Shown correctly	Pass	2026-07-26 14:02:37

Announcements: 16 test cases, 16 passed, 0 failed.

MODULE: INTEGRATIONS

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-INT-001	Integrations	Regular Team Member views the platform integrations dashboard	Should be blocked - this is platform-wide Super Admin configuration	Was allowed to view platform-wide integration stats	Fail	2026-07-26 14:02:37
TC-INT-002	Integrations	Super Admin views the list of configured integrations	Integration providers listed	Shown correctly	Pass	2026-07-26 14:02:37
TC-INT-003	Integrations	Super Admin views platform integration API keys	Key list shown	Shown correctly	Pass	2026-07-26 14:02:37
TC-INT-004	Integrations	Super Admin creates a new platform integration API key	Key created	Created successfully	Pass	2026-07-26 14:02:37
TC-INT-005	Integrations	Super Admin disables a platform integration API key	Key status updated	Updated successfully	Pass	2026-07-26 14:02:37
TC-INT-006	Integrations	Super Admin views configured webhooks	Webhook list shown	Shown correctly	Pass	2026-07-26 14:02:37
TC-INT-007	Integrations	Super Admin registers a new webhook	Webhook created	Created successfully	Pass	2026-07-26 14:02:37
TC-INT-008	Integrations	Super Admin deletes a webhook	Webhook deleted	Deleted successfully	Pass	2026-07-26 14:02:37
TC-INT-009	Integrations	Super Admin views integration activity logs	Log entries shown	Shown correctly	Pass	2026-07-26 14:02:37
TC-INT-010	Integrations	Super Admin tests an integration via the API playground	Handled without crashing	Handled without crashing unexpectedly	Pass	2026-07-26 14:02:37
TC-INT-011	Integrations	Super Admin tests the email integration connection	Test result shown	Handled without crashing unexpectedly	Pass	2026-07-26 14:02:37

Integrations: 11 test cases, 10 passed, 1 failed.

MODULE: LICENSES

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-LIC-001	Licenses	Super Admin views platform license stats	License stats shown	Shown correctly	Pass	2026-07-26 14:02:37
TC-LIC-002	Licenses	Regular Org Admin views the platform-wide license management list	Should be blocked - this manages every organization's licenses	Was allowed to view/manage every organization's licenses	Fail	2026-07-26 14:02:37
TC-LIC-003	Licenses	Super Admin views the platform-wide license list	All orgs' licenses shown	Shown correctly	Pass	2026-07-26 14:02:37
TC-LIC-004	Licenses	Super Admin views a specific organization's license detail	License detail shown	Shown correctly	Pass	2026-07-26 14:02:37
TC-LIC-005	Licenses	Super Admin updates an organization's license limits	License updated	Updated successfully	Pass	2026-07-26 14:02:37
TC-LIC-006	Licenses	Super Admin suspends an organization's license	License suspended	Suspended successfully	Pass	2026-07-26 14:02:37
TC-LIC-007	Licenses	Super Admin resumes a suspended license	License resumed	Resumed successfully	Pass	2026-07-26 14:02:37
TC-LIC-008	Licenses	Super Admin renews an organization's license	License renewed	Renewed successfully	Pass	2026-07-26 14:02:37
TC-LIC-009	Licenses	Super Admin extends an organization's license by 30 days	Expiry pushed out	Extended successfully	Pass	2026-07-26 14:02:37
TC-LIC-010	Licenses	Super Admin regenerates an organization's license key	New key generated	Regenerated successfully	Pass	2026-07-26 14:02:37
TC-LIC-	Licenses	Super Admin downloads an	License document	Downloaded	Pass	2026-07-26

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
011		organization's license certificate	returned	successfully		14:02:37
TC-LIC-012	Licenses	Super Admin looks up a license for an organization ID that doesn't exist	Not found error shown	Correctly shown as not found	Pass	2026-07-26 14:02:37

Licenses: 12 test cases, 11 passed, 1 failed.

MODULE: BILLING

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-BILL-001	Billing	Regular Org Admin tries to view the platform billing dashboard	Blocked, Super Admin required	Was allowed	Fail	2026-07-26 14:02:37
TC-BILL-002	Billing	Super Admin views the platform billing dashboard	Billing KPIs shown	Shown correctly	Pass	2026-07-26 14:02:37
TC-BILL-003	Billing	Super Admin views all platform invoices	Invoice list shown	Shown correctly	Pass	2026-07-26 14:02:37
TC-BILL-004	Billing	Super Admin manually creates an invoice for an organization	Invoice created	Created successfully	Pass	2026-07-26 14:02:38
TC-BILL-005	Billing	Super Admin issues a credit note to an organization	Credit note created	Created successfully	Pass	2026-07-26 14:02:38
TC-BILL-006	Billing	Super Admin views the billing revenue report	Revenue report shown	Shown correctly	Pass	2026-07-26 14:02:38
TC-BILL-007	Billing	Super Admin views the tax report	Tax breakdown shown	Shown correctly	Pass	2026-07-26 14:02:38
TC-BILL-008	Billing	Super Admin views AI-generated billing insights	Insights shown	Shown correctly	Pass	2026-07-26 14:02:38

Billing: 8 test cases, 7 passed, 1 failed.

MODULE: SUPER ADMIN V1

Test Case ID	Module	Functionality	Expected Output	Actual Output	Result	Timestamp
TC-SAV1-001	Super Admin v1	Super Admin views v1 dashboard stats	Stats shown	Shown correctly	Pass	2026-07-26 14:02:38
TC-SAV1-002	Super Admin v1	Regular Team Member tries to view v1 dashboard stats	Should be blocked - Super Admin only	Correctly blocked	Pass	2026-07-26 14:02:38
TC-SAV1-003	Super Admin v1	Super Admin searches across the v1 dashboard	Search results shown	Shown correctly	Pass	2026-07-26 14:02:38
