

IFQM Employee Ideation Tool

User Manual — Employees

1. Signing In

Go to your organisation's IFQM web address. On the **Sign In** screen:

1. Type your **Username, Email, or Phone number** — any one of the three works.
2. Type your **Password**.
3. Click **Sign In**.

First time signing in? Your admin gave you a temporary password. After you sign in with it, you'll immediately be asked to **Choose a new password**:

1. Enter the temporary password you just used.
2. Enter a **New password** (at least 12 characters).
3. Enter it again to **Confirm**.
4. Click **Set my password**.

You cannot use any other part of the app until this is done.

Forgot your password? Click **Forgot your password?** on the Sign In screen, enter your registered email, and click **Send reset link**. Check your email for a link — it works for one hour.

Note: Once you're past your first sign-in, there is no "change password" button anywhere in the app. If you ever forget your password again later, use **Forgot your password?** on the Sign In screen — that is the only way.

Signing in with a code instead of a password: if your organisation has this turned on, you'll see a link "**Sign in with a code instead**". Click it, enter your phone number, click **Send me a code**, then enter the 6-digit code sent to your phone and click **Verify and sign in**.

2. Finding Your Way Around

Once signed in, you'll see:

- **Left sidebar** — your main menu: Dashboard, My Ideas, Submit Idea, Challenges, All Ideas, Rejected Ideas, Idea Board, Leaderboard, Help, Support, My Profile.
- **Top bar** — a menu icon (☰) to hide/show the sidebar, a Dark/Light switch, a language picker (7 languages available), a notification bell, your name and photo (click it to go to your profile), and a **Logout** button.
- **Notifications** — click the bell icon any time to see updates on your ideas. Click any notification to jump straight to that idea.

3. Submitting a New Idea

Click **Submit Idea** in the sidebar. You'll go through 6 short steps:

- 1. Situation** — give your idea a short title and describe the current problem (at least 20 characters). If a similar idea already exists, you'll see a warning — worth a quick look before continuing.
- 2. Solution** — describe your proposed solution, optionally note the expected benefits, pick one or more categories, and choose an impact level (Low/Medium/High/Critical).
- 3. Business Case** (*all optional*) — if you know them, add estimated cost, feasibility, time to implement, and what support you'd need. You can skip this step entirely if you don't have this information yet.
- 4. Attachments** (*optional*) — attach any supporting files (PDF, Word, Excel, or images).
- 5. Co-Suggesters** (*optional*) — search for and add any colleagues who helped come up with the idea.
- 6. Review & Submit** — check everything, tick the box if you think the idea might be worth patenting, then click either **Submit New Idea** to send it for review, or **Save Draft** to keep working on it later (drafts are private — only you can see them).

Use ← **Back** and **Next** → to move between steps.

4. Tracking Your Ideas

Click **My Ideas** to see everything you've submitted, including drafts. Each idea shows its status:

Status	Meaning
Draft	Saved but not yet submitted
Submitted / Under Review	Being reviewed by your manager or reviewer
Approved	Accepted
Implemented	Approved and now put into practice
Rejected	Not accepted — click View to see the reviewer's reason

Click **View** on any idea to see full details, including its review timeline, any attachments, and its AI-generated quality score.

Ideas you don't have to act on can also be found in:

- **All Ideas** — every idea submitted across your organisation (you may see a shortened summary for ideas outside your own team, depending on your organisation's privacy settings).
- **Rejected Ideas** — a filtered list of everything that wasn't accepted, useful to check before submitting a similar idea.

5. The Idea Board and Voting

Click **Idea Board** to see ideas laid out for everyone to browse and vote on. Click ▲ to upvote or ▼ to downvote an idea (you can't vote on your own). You can also give a 1–5 star rating from inside an idea's details.

6. Challenges

Click **Challenges** to see any active campaigns your organisation has set up asking for ideas on a specific topic. Click **Submit Idea for This Challenge** on an active challenge to jump straight into the submission wizard, linked to that challenge.

7. Leaderboard

Click **Leaderboard** to see how you and your colleagues rank by points earned from submitting and having ideas approved. You can filter by All Time, Monthly, Quarterly, or Yearly, and share your rank or the top 5 using the share buttons at the top.

8. Getting Help

- **Help** — a searchable list of frequently asked questions.
 - **Support** — click + **Raise a Ticket** to send a question or problem directly to the IFQM support team. Fill in a subject, category, priority, and your message, then click **Send**. You'll get a ticket number and can track replies and add follow-up messages from the same page.
-

9. Your Profile

Click **My Profile** (or your name in the top bar) to view your details. Click **Edit details** to update your Department, Business Unit, or Location.

To change your registered **phone number**, click **Change** next to the Phone field, enter the new number, click **Send code**, then enter the code you receive and click **Confirm**.

Your **Email**, **Reporting To**, and **Role** are set by your organisation's admin and cannot be changed here.

10. Signing Out

Click **Logout** in the top bar, from anywhere in the app.

Quick Reference

I want to...	Go to
Submit a new idea	Submit Idea
Check the status of my idea	My Ideas
See why an idea was rejected	Rejected Ideas → View

I want to...	Go to
Vote on a colleague's idea	Idea Board
See who's leading the rankings	Leaderboard
Ask IFQM for help	Support → + Raise a Ticket
Update my contact details	My Profile
Change my forgotten password	Sign Out → Forgot your password?
